Thoroughly revised and updated with examples rewritten to conform to HTML5, CSS3, and contemporary web development practices, this easy-to-understand, step-by-step tutorial helps you quickly master the basics of HTML and CSS before moving on to more advanced topics such as graphics, video, and interactivity with JavaScript. In just one hour a day, you'll learn the skills you need to design, create, and maintain a professional-looking website.

No previous experience required. By following each short, one-hour lesson in this book, anyone can learn the basics of web development.

Learn at your own pace. You can work through each lesson sequentially to make sure you thoroughly understand all the concepts and methodologies, or you can focus on specific lessons to learn the techniques that interest you most.

Test your knowledge. Each lesson ends with a Workshop section filled with questions, answers, and exercises for further study.

Laura Lemay is one of the world's most popular authors on web development topics. In addition to the best-selling *Sams Teach Yourself Web Publishing with HTML*, she is also the original author of *Sams Teach Yourself Java in 21 Days*.

Rafe Colburn is a software developer and author living in North Carolina. His other books include *Sams Teach Yourself CGI in 24 Hours* and *Special Edition Using SQL*.

Jennifer Kyrnin has been teaching HTML, XML, and web design online since 1997. She has built and maintained sites of all sizes and currently specializes in responsive design using Bootstrap and WordPress.

This edition is for sale only in the following countries:
INDIA, BANGLADESH, NEPAL, PAKISTAN, SRI LANKA, BHUTAN and MALDIVES.
